January 29, 2007

Ref: Material Safety Data Sheets

Dear Customer:

This is regarding your request for Material Safety Data Sheets (MSDS) on the Thread /Technical Textile Products you purchase from us. Please note that both “Thread and Technical Textile Products” meet the definition of an article in OSHA’s Hazard Communication Standard. The Hazard Communication Standard does not apply to “Articles” and hence MSDS’ are not required for Thread/Technical Textile Products.

If you have any questions or comments, please contact me by email at danny.seamon@amefird.com or by phone at 704-951-2291.

Sincerely,

**Danny Seamon
